

SKID STEER SNOWPLOW ATTACHMENT

FITS ON THE BIGGEST NAMES IN THE BUSINESS

CATERPILLAR • NEW HOLLAND • BOBCAT • JOHN DEERE • GEHL • JCB
HYDRA-MAC • MUSTANG • THOMAS EQUIPMENT LTD. • CASE • DAEWOO

Align the attachment frame with the plow.

Position the attachment frame underneath the attachment flange.

Retract the frame.

Secure the handles for a solid connection.

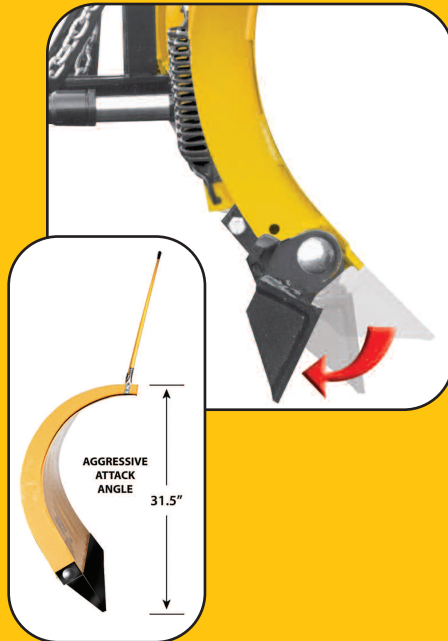

Attach the hydraulic couplers.

You're ready to work.

SKID STEER SNOWPLOW ATTACHMENT

Meyer understands that snowplowing doesn't always take place on the open road. That's why skid steer loaders are ideal for snowplowing in confined areas. The turning radius of the skid steer allows you to maneuver in tight areas and in between obstacles. The lift path allows you to stack snow very high and very accurately. Any skid steer that uses a Universal Attachment System can be equipped with a Meyer Diamond Edge bottom-trip plow.

The Meyer Diamond Edge moldboard features an attack angle and precise curvature that delivers optimum snow rolling action to move more snow in less time and also has a high capacity for snow stacking. The bottom-trip action keeps the moldboard upright and functioning and keeps the skid steer from being damaged when striking hidden obstacles at ground level. All Meyer Diamond Edge moldboards are backed with Meyer's 3+5 warranty and are built with Reliable Over-time Construction, ROC for short. It's the detailed things that only Meyer does to make our plows more rugged and reliable.

Model	DAG-7.5	DAG-8	DAG-8.5	DAG-9
Blade Type	Bottom-Trip	Bottom-Trip	Bottom-Trip	Bottom-Trip
Moldboard Length	90"	96"	102"	108"

Meyer snowplow equipment should only be used on vehicles equipped with the manufacturer's snowplow preparation packages. Snowplowing without the original snowplow preparation package may damage your vehicle and the added weight of the equipment may impair the operation and control of the vehicle. Snowplowing with a vehicle that the manufacturer does not recommend for that purpose may void your new vehicle warranty. If your vehicle is not originally equipped with the snowplow preparation package additional equipment may be necessary before snowplowing. Owners of these vehicles should consult their truck dealers before purchase or installation of such equipment. CAUTION: The installation on any vehicle of these parts is not a full substitute for the original equipment snowplow preparation package. Meyer Products LLC reserves the right under its continuing product improvement program, to change construction or design details and specifications without notice or without incurring any obligation.
