| 5                                   | 91332 | 4   | 5/16-18 Hex Locknut GB           |  |

**⚠ WARNING**

Do not exceed GVWR or GAWR, including blade and ballast. The rating label is found on the driver-side vehicle door cornerpost.

**⚠ CAUTION**

Use standard methods and practices when attaching snowplow, including wearing proper safety equipment.

**⚠ CAUTION**

See your sales outlet for application recommendations. The Kit Selection Guide/ Selection List has specific vehicle and snowplow requirements.

## INSTALLATION INSTRUCTIONS

1. Using jack stands, support blade off the ground.
2. Place shoe behind cutting edge approximately 2" from end of blade and slide up to contact lower angle of blade frame.
4. Mount shoe to desired height as shown in the following diagram. Shoe height is adjusted by mounting through the next higher set of holes. Secure with two 5/16" x 2-1/4" cap screws, 5/16" washers, and locknuts.

3. Using the lowest set of holes in the shoe as a guide, drill two 11/32" diameter holes on each end of the blade.

Drill two 11/32" dia. holes using these holes as a guide.
