Parts indented are included in the carton, bag or assembly under which they are indented.

Note: The 07240 Plug Assy. can only be used with the Night Saber plow lights part number 07223.

For plug replacement on E-Z Mount Plus and MDII Mount applications replace plug and connect wires per color code. Be sure to test plow light blinkers for correct wiring of plow lights.

For E-Z Mount Plus, MDII or Universal Mount disconnect Meyer Hydraulic Harness from the Hydraulic unit. Discard the pig tail with the red and black motor wires from the Hydraulic unit. Connect Hydraulic side female socket (2) wires red, black and green to their corresponding colored wires on hydraulic unit. Connect the large black wire to the ground on the base of Hydraulic unit, second ground wire will be taped or if motor has 2 terminals connect to ground lug of motor. Connect the large red wire to the Motor stud. Connect the short light harness to the left light and the long light harness to the right light. Mount the vehicle side male plug through the vehicle grill. Be sure to test plow light blinkers for correct wiring of plow lights.
