⚠ WARNING

Do not exceed GVWR or GAWR, including blade and ballast. The rating label is found on the driver-side vehicle door cornerpost.

⚠ CAUTION

Read this document before installing the poly cutting edge kit.

⚠ CAUTION

Use standard methods and practices when attaching snowplow and installing accessories, including proper personal protective safety equipment.

⚠ CAUTION

See your WESTERN® outlet/website for specific vehicle application recommendations before installation. The Quick Match selection system has specific vehicle and snowplow requirements.

INSTALLATION INSTRUCTIONS

⚠ WARNING

Do not exceed GVWR or GAWR, including blade and ballast.

⚠ WARNING

Blade can drop unexpectedly. Place T-frame on jack stands. Failure to do so could result in serious personal injury.

⚠ CAUTION

Read this document before installing the poly cutting edge kit.

⚠ CAUTION

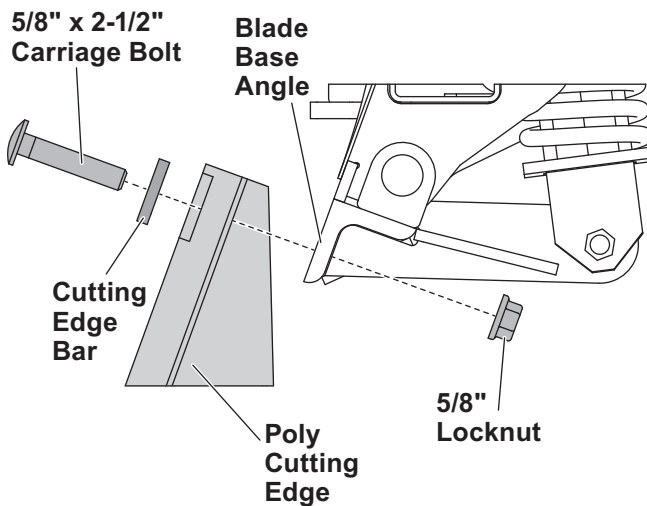

Use standard methods and practices when attaching snowplow and installing accessories, including proper personal protective safety equipment.

⚠ CAUTION

See your sales outlet/website for specific vehicle application recommendations before installation. The online selection tool has specific vehicle and snowplow requirements.

1. Park the vehicle on a smooth, level, hard surface, such as concrete. Raise the blade and adjust it into the V position.
2. Turn the control OFF. From the side of the blade assembly, place jack stands under the T-frame.

3. Turn the control ON and lower the blade so that the T-frame rests securely on the jack stands. Turn the control OFF. Turn the vehicle ignition to the "OFF" position and remove the key.
4. Remove the existing blade cutting edges, center cutting edges, and curb guards and fasteners from the blade.
5. Insert the supplied 5/8" x 2-1/2" carriage bolts through the cutting edge bar, cutting edge, and blade base angle. Install a 5/8" locknut onto each carriage bolt and tighten to 50 ft-lb.

6. Repeat Steps 4 and 5 on the other side.
7. Turn the vehicle ignition and snowplow control ON. Raise the blade slightly. Turn the control OFF and remove the jack stands.
8. Stand 8 feet clear of the blade, and lower the blade to the ground.
